BGi199

EVC® card quality control

Features & description

The BGi199-EVC-QC is an automatic card quality control of EVC® dynamic security code. It verifies the fonctionality of the display at the back of the chip (blank / black / digits) as well as contrast.

- Control and test using contact and contactless interfaces
- Automated optical inspection of the display
- Stacker of 600 cards in input and 2x500 cards in output (OK - KO) + rejection bin

Advantages

- Throughput of up to 1440 units per hour depending on configuration

Option

- Parametrical test

Dimensions and weights

- Width: 1750mm
- Depth: 600mm
- Height: 1650mm
- Weight: 170kg

Facilities

- Power: 100-240V AC
- Frequency: 50-60Hz single phase
- Power consumption: 600W maximum

Throughput

- Up to 1440 units/hour

Environmental conditions

- Operating temperature: +10°C to +40°C
